WHAT YOU WILL BUILD

- Plan a short film from treatment to shot list.
- Operate a camera and capture clean audio.
- Edit a sequence with rhythm and continuity.
- Screen and critique a finished piece.

SYLLABUS OUTLINE

01 Story and treatment
Turn an idea into a treatment with a clear point of view.

02 Pre-production
Shot lists, locations and roles planned before anyone presses record.

03 Camera
Framing, movement and exposure decisions that serve the story.

04 Sound
Microphones, levels and room tone - capturing audio that can be edited.

05 Editing
Assembly, rhythm and colour in a first cut that holds attention.

06 Screening
Screen the work, take structured critique and deliver a final cut.

CAPSTONE & STUDENT OUTPUT

A short film

A three-to-five-minute film, delivered with a treatment, shot list and a finished edit screened to the cohort.

STUDENT OUTPUT
A short film, a production folder and a final screening.
